Nilam Rakholiya

IT Graduate | Front-End & Shopify Developer
Brisbane, Queensland, Australia

Summary

I am an IT professional based in Brisbane with a Master's in Information Technology from James Cook University and over four years of hands-on front-end and e-commerce development experience, mostly building with Shopify, HTML, CSS, and JavaScript. Right now I'm deepening my software engineering foundations through focused study of Data Structures & Algorithms and JavaScript (Namaste Dev), and building out my GitHub with that work. Alongside my tech background, I bring strong database modelling, SQL, and data analysis skills, plus the reliability, adaptability, and problem-solving I've sharpened through healthcare support roles - skills that translate directly into disciplined, team-based development work. I'm looking for an entry-level developer or IT role in Brisbane where I can keep growing. Feel free to check out my GitHub or reach out - always happy to connect.

Experience

Palm Lake Care

Personal Carer

July 2026 - Present (2 months)

Deception Bay, QLD

-> Provide compassionate, high-quality daily support to residents in a fast-paced care environment.

-> Apply strong attention to detail and accurate documentation practices, translating directly to disciplined, quality-focused work habits.

-> Manage competing priorities and shifting demands calmly - a strength for working across concurrent tasks or sprints in a development team.

TriCare Retirement Living & Residential Aged Care

Personal Carer

August 2024 - March 2026 (1 year 8 months)

Brisbane, QLD

Provided high-quality, person-centred care while strengthening communication, problem-solving, and time-management skills in a fast-paced, compliance-driven environment.

James Cook University Brisbane

Subject assistant

September 2024 - December 2024 (4 months)

Brisbane, QLD

-> Assisted the lead professor in managing practical sessions and evaluating student work for a large class.

-> Helped students understand database modelling and related IT concepts, strengthening personal technical understanding through hands-on teaching.

-> Built confidence in communication, mentoring and technical application, supporting long-term IT career goals.

Cuelix

Shopify Front End Developer

August 2022 - February 2024 (1 year 7 months)

Surat

Developed and customised Shopify storefronts, building reusable front-end components and improving site usability.

CodeInfluencer IT Solution

Frontend Web Developer

July 2021 - July 2022 (1 year 1 month)

Built and maintained responsive websites using HTML, CSS and JavaScript.

Candisoft Infotech

Shopify Front End Developer

February 2021 - July 2021 (6 months)

Surat

Designed and built core Shopify components - header, navigation menu, accordion, footer, sidebar and cart - for e-commerce clients.

Dotmagic Infotech

Shopify Frontend Developer

November 2019 - January 2021 (1 year 3 months)

Surat

Built foundational HTML/CSS skills and expanded into Shopify development, including the Liquid templating language and Shopify admin panel.

Vasundhara Infotech

Jr. iOS Developer

August 2017 - August 2018 (1 year 1 month)

Surat

Applied Swift to build and test iOS applications across multiple devices, applying foundational software development principles.
